'It's not where you are taking things from- it's where you take them to' . At Motley Roots, we hope to entwine the life of an artisan who for centuries has chiselled his fate with an ever dwindling hope of survival, with the vibrancy of the contemporary lifestyle choices. A whiff of fresh air to the waning art and a sparkle of hope for the artisan that his future generations will find pride in their heritage. We produce contemporary designs that craftsmen can elegantly imbibe in their traditional art form and fashion products that add a touch of finesse to your homes.

Designers and artisans combined together to create designs suitable for each area. Not just in terms of house decor but also into fashion.

Focus is not easy for anyone but at Sambhav these children learnt that very well. Sambhav provides generalized as well as person-specific training to its students, to help prepare them for a more meaningful and independent life.

The special adults at Sambhav took opportunity to make diyas and candles on this diwali. From making to colouring to finishing all work was done by these people. These people Worked effortfully for 6 hours daily to make these diyas. Some really wanted to make career in candle making in future.

Help to ensure that people with special abilities have equal opportunities. Being special shouldn't exclude someone from the opportunity to be independent. At Sambhav foundation these differently-abled are help ed with special education, transport, healthcare, and vocational training so that they overcome the disability and live a normal life.

Designer Diya

Students at Sambhav worked really hard to make diyas beautiful and finished. with their special skills they made each diya with lot of love and care. Each diya is hand painted, finished and packed by students themselves. It took 5 days for 3 students to make a nice set of diya for your diwali.

Get any of these diya sets with our product range and support these intellectually special people earn a living.

Containers

Metal engraving is a fine and a delicate art. This craft shows the traces of Islamic culture. There are many sharp tools used in the process of tracing the design on to the brass, silver and copper. Metal ornaments have been a rave in all ages and times. The attractive contrasts in colours and textures of metals has led to the evolution of metal ornamentation through techniques like inlay, overlay, applique, fixing of colours etc. Wide range of containers are present for gifting which looks royal and elegant.
